When the State targets people for harassment, prosecution and incarceration, they do more than repress individuals. Friends, family, loved ones, are punished, entire communities are disrupted, immeasurable strains are imposed on those who care about these targets of state repression. With 21 felony cases resulting from the recent RNC in St. Paul, on the 3rd anniversary of the Green Scare* and our 2nd birthday, EWOK! is taking December 7th as a chance to reflect on the real effects the criminal "justice" system has on our communities, and to recognize the invaluable contributions of those on the outside who stand strong and support political arrestees and prisoners when such support is both difficult to provide and necessary to survive.
